

AGS2097 bonding leads are a series of aerospace approved bonding leads, generally, but not exclusively, found on legacy aircraft such as Tornado, Hawk and the C-130 (Hercules).

They are only available with one standard braid size 0.7mm<sup>2</sup> and a combination of terminal sizes and lengths.

Operating Temperature:

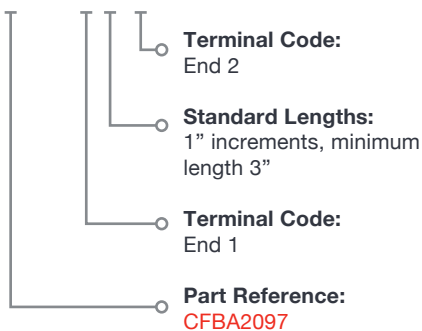

- Tin-plated Cu: -65°C to +150°C

MULTIPLE LENGTHS AVAILABLE

CHOICE OF TERMINAL SIZES

Part No. example

CFBA2097-B-4-B

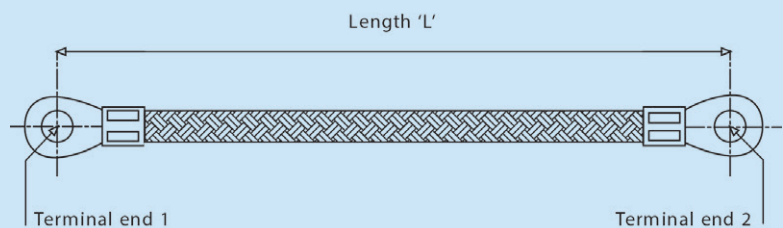

## AGS2097 Series

Standard Bonding Lead Solutions

Aerospace Approved  
Tin Plated Copper Braid  
0.7mm<sup>2</sup> Cross Sectional Area

Terminal Code	Hole Diameter (mm)
B	3.68
C	5.00
E	6.73
G	8.33
J	9.91
